# Aficio® 220 & 270

## Strategically Designed For Your Growing Networked Office.

*Your business keeps growing and so do the demands of your workload. The question becomes, do you keep wasting money on an outdated system or spend way too much on one that has capabilities you don't yet require? RICOH® has simplified the decision-making process with a reliable, expandable, affordable and safe solution*

*focusing on your requirements... and addressing your changing business applications in the future!*

*The Ricoh Aficio® 220 & 270 Digital Imaging Systems offer the high-performance advancements of digital technology—from outstanding image quality to an array of convenient, productive capabilities—and are*

*built on a modular design to enable you to add on digital faxing, network printing and network scanning capabilities within a single system to support your business applications.*

*Whether your environment is a connected workgroup within a large corporation, a branch location or a small office, the Ricoh Aficio 220 & 270 handle your document workflow no matter what your applications, providing you with one of the most integrated, affordable multifunctional imaging systems on the market.*

### Digital, A Step Ahead

Going digital is where it's at in today's fast-paced, evolving business world and Ricoh has taken the lead in the industry where digital technology is concerned. Advanced Ricoh engineering ensures unsurpassed quality, productivity and reliability, yet it also enables the essential expandability a company needs to get ahead. Imagine, the flexibility of building your own integrated digital imaging system to meet your growing needs!

## **Touch Panel Display, Simple to Use**

Even a digital imaging system that seems capable of doing everything simply can't do *anything* if it's not easy to use. Novices and experienced users alike can walk right up to the Aficio 220 & 270 and access even the most sophisticated functions with a "touch" on the Touch Panel Display. These user-friendly systems come with a logically organized control panel that is clearly labeled.

## **Network Printing at 22 or 27 Pages per Minute**

Full-service convenience can be yours when incorporating laser quality printing with 600 dpi resolution for seamless network connectivity. Support is standard for PCL5e/PCL6 and an option for genuine Adobe® PostScript® 3™, ensuring compatibility with all of today's most popular applications.

Booklet printing, slip sheets, two-sided printing (duplex), covers, stapling or watermarks are just some of the options available with a point and click on the driver.

## **Exceptional Image Quality, Professional Image**

You can't accept anything less than perfection when it comes to your image. That means great looking documents every time. The Ricoh Aficio 220 & 270 offer 600 dpi resolution, combined with 256 level gray scale capability, for the sharpest of images. Photographs, spreadsheets, manuals, and proposals are also faithfully reproduced with the help of three special Original Modes to reflect your professional image.

## Efficient Memory Performance, Productive Users

From single copies to finished sets, you'll always experience exceptional performance and productivity. By scanning an original document once, directly into the powerful 20 MB standard, expandable memory, the

Automatic Reversing Document Feeder (ARDF)

Ricoh Aficio 220 & 270 allow you to go do other work while the "**scan once, print many**" capability takes over to complete your job, regardless of the number of sets requested. Wear and tear on the document feeder is significantly reduced, as are operation noise levels, and every copy has the same precision quality as the original.

Memory capability also means your output will be electronically sorted, automatically, without the need for a mechanical sorter. And, to give your

documents a more professional look, you can utilize **preset stamps**, or even add **page numbers**, easily placing them on a page in a variety of positions using the Touch Panel Display.

## Advanced Technology, Enhanced Reliability

While the Aficio 220 & 270 is space-saving and easy to use, what truly counts is on the inside – the state-of-the-art Ricoh engineering elements that ensure reliability and productivity use after use. Elements like a short, **straight paper path** delivering a fast first copy speed of **4.9 seconds** dramatically improves reliability.

**Stackless Duplexing** streamlines two-sided output like never before. You can perform limitless duplexing for jobs as large as 11" x 17", whether you're copying, faxing or printing!

### Intelligent Document Handling

Capable of holding up to a **3,100-sheet paper supply** and automatically switching paper sources

Shift Sort Tray

during a copy or print run, the Ricoh Aficio 220 & 270 ensure uninterrupted operation so you can focus on other work tasks. Our optional **Automatic Reversing Document Feeder (ARDF)** processes multiple originals sized 5½" x 8½" to 11" x 17". High-speed sorting up to 11" x 17" is available with the optional **Shift Sort Tray**. Polish off your output into neatly collated, stapled sets with

the optional **1,000-sheet Finisher** for professional looking documents.

## High Performance Fax Capabilities

The Ricoh Aficio 220 & 270 stand up to the most powerful fax systems on the market today. Enjoy fast 3-second per page transmission speed via a standard 33.6 Kbps modem, with incoming faxes printed at full engine speed (22 or 27 pages per minute)—*twice* as fast as most stand-alone faxes. The optional **Multi Line** capability allows the Aficio 220 & 270 to send and receive documents at the same time.

## Embracing Environmental Commitment

Ricoh only manufactures products that create a healthier and safer environment for all.

Consequently, Ricoh Corporation was recognized as the 1999 "Imaging Partner of the Year" and has received EPA recognition for four years running for its Energy Star Compliance.
